Brodskiy.M@Northeastern.edu

***Abstract***—This document outlines an instance on the Northeastern University Boston campus where value-sensitive design was not taken into consideration; furthermore, it provides a possible solution to said design mistake, in addition to restating the design as reformed problem statement.

***Index Terms***—technical, success, design, value-sensitive, technology, access

## I. INTRODUCTION

This document is prepared in accordance with the Institute of Electrical and Electronics Engineers (IEEE) specifications, and attempts to identify a value-sensitive design problem.

## II. THE PROBLEM

- A. Description*
- B. Significance*
- C. Defining Success*

## III. VALUE-SENSITIVE DESIGN

- A. Incorporating Value-Sensitive Design*
- B. Byproducts of the Aforementioned Solution*
- C. Employing Technology to Mitigate Byproducts*

## IV. REDEFINED PROBLEM STATEMENT
